PREPARED FOR SWISSFOX

COLDSTORM AI

# AI-Powered Investigations. Built for Swiss Fox.

How AI agents can triple your team's capacity, expand your service menu, and give Swiss Fox a structural advantage — without a single new hire.

volcy@coldstorm.org · coldstorm.org

THE REALITY

# Your competitors are already moving.

**70%**

**Kroll, FTI, Control Risks** — all investing in AI-powered investigation workflows right now

**3x**

**Case throughput increase** when AI handles research, drafting, and data analysis

**24h**

**Client expectations** are shifting — days, not weeks. First firm to deliver wins the repeat.

The question isn't whether AI will change investigations. **It's whether Swiss Fox leads or follows.**

BACKGROUND

# You've already seen my work.

**SWISS FOX · 2024**

Crypto tracing specialist — **Chainalysis reports, transaction investigations, intel gathering.** Delivered on demand. No overhead.

**BINANCE · MARKET SURVEILLANCE**

Investigated market manipulation across **150M+ user platform.** Traced $500K+ in assets. Drafted SARs for global compliance.

**COLDSTORM AI · 2025-PRESENT**

Built and deployed **5 production AI investigation systems** — crypto tracing, due diligence, compliance monitoring, SAR automation.

**REGULATORY DEPTH**

FINMA, VQF, FINTRAC, FinCEN, FATF, MiCA — **multi-jurisdictional compliance** across Switzerland, Canada, EU, and US.

→ Same specialist you trusted in 2024 — now with **AI systems that turn days of work into hours.**

THE SHIFT

# What changes when AI runs your back office

## HOW IT WORKS TODAY

- ✕ Analyst spends 2-3 days on a single DD report
- ✕ OSINT gathering is manual — hours per subject
- ✕ Crypto traces take 1-2 days to compile
- ✕ SAR drafting eats a full day per filing
- ✕ Limited case volume — bottlenecked by analyst hours
- ✕ New service lines? Too labor-intensive to offer

→

## HOW IT WORKS WITH AI AGENTS

- ✓ DD report drafted in 4-8 hours — analyst reviews and refines
- ✓ AI scans 200+ OSINT sources in 30 minutes
- ✓ Fund flow analysis with entity mapping in 2-4 hours
- ✓ SAR narratives auto-drafted in 2 hours — ready for sign-off
- ✓ Same team handles 3x the caseload
- ✓ Compliance monitoring, regulatory advisory — now viable

HOW IT WORKS

# I handle operations. You focus on clients.

| | | |
|---|---|---|
| **Due Diligence & Investigations** | I run the research, draft the report. Your team reviews, refines, delivers. | **Hours, not days** |
| **Crypto & Blockchain Forensics** | Fund tracing, entity mapping, risk scoring — complete reports ready for your brand. | **Hours, not days** |
| **Compliance & Regulatory Filings** | SAR/STR drafting, sanctions screening, AML reviews — formatted for sign-off. | **Hours, not days** |
| **OSINT & Intelligence Reports** | 200+ sources scanned, cross-referenced, synthesized into actionable intel. | **Minutes, not hours** |
| **Workflow Design & AI Training** | I build the systems, train your team, or run it all — whatever Swiss Fox needs. | **Ongoing** |

**Your analysts get their time back** for the work that actually grows the firm — client relationships, business development, and strategic advisory. I handle everything behind the curtain.

BUSINESS CASE

# The math that matters

**70**
%
faster DD reports

**75**
%
faster crypto traces

**80**
%
faster OSINT gathering

**3**
x
case capacity per analyst

SCENARIO A · 5 EXTRA CASES/MONTH

At Swiss Fox's rate per case, **5 additional cases/month** from faster turnaround = **significant new revenue** with zero new headcount.

SCENARIO B · NEW SERVICE LINES

Compliance monitoring, regulatory advisory, large-scale OSINT — **services you couldn't offer before** are now profitable. **Recurring revenue.**

LIVE SCENARIO

# One case. Two realities.

**Tuesday, 10:15 AM.** Swiss Fox receives a client request: **"We need enhanced due diligence on a potential business partner — a crypto company registered in Zug with operations in Dubai. Report by Friday."**

## WITHOUT AI

| | |
|---|---|
| 10:30 | Analyst begins. Manual search on Zefix, SECO, OpenCorporates |
| 12:00 | Corporate registry review — directors, shareholders, filings |
| 14:00 | Manual sanctions/PEP screening — SECO, EU, OFAC lists |
| WED AM | Court record searches — Swiss, UK, US jurisdictions |
| WED PM | Adverse media review — Google searches, news archives |
| THU | Write report, cross-check sources, quality review |
| THU PM | **Report delivered. 2.5 days. 1 case done this week.** |

VS

## WITH COLDSTORM AI

| | |
|---|---|
| 10:20 | **AI agents deployed** — scanning 200+ sources in parallel |
| 10:50 | Corporate, sanctions, PEP, courts, media — all returned |
| 11:00 | **AI drafts structured DD report** — 10 sections, every finding sourced |
| 11:30 | Analyst reviews AI output, refines analysis, adds judgment |
| 13:00 | Swiss Fox brands the report, final QC |
| 14:00 | **Analyst starts the next case.** |
| 14:00 | **Report delivered. 4 hours. Room for 3 more cases this week.** |

Same quality. Same analyst. **Tuesday instead of Thursday.** That's **3x the billable output. Every single week.**

REVENUE IMPACT

# What this means for Swiss Fox's bottom line

| TODAY | |
|---|---|
| Cases per analyst / month | 8-10 |
| Avg. client billing / case | CHF 10,000 |
| Operational cost / case | CHF 5,000 |
| Gross margin / case | CHF 5,000 |
| **Monthly gross margin** | **CHF 50,000** |

→

| WITH COLDSTORM AI | |
|---|---|
| Cases per analyst / month | 25-30 |
| Avg. client billing / case | CHF 10,000 |
| Coldstorm retainer (flat) | CHF 5,000/mo |
| Operational cost / case | CHF 1,500 |
| **Monthly gross margin** | **CHF 120,000+** |

**+CHF 70,000**

additional monthly gross margin — per analyst

Retainer pays for itself before the first case is delivered. Everything after is pure upside.

ENGAGEMENT

# Three ways to start

### Per-Case

Same model as 2024. You send the work, I deliver the report. No commitment, no risk. See the AI difference on your next case.

**Per engagement**

RECOMMENDED

### Monthly Retainer

Priority access. Faster turnaround. Ongoing investigations, compliance work, and AI-powered workflows on demand. Predictable capacity for Swiss Fox.

**CHF 5,000/mo**

### On-Site Sprint

I fly to Zug. Set up AI infrastructure on your systems. Train your analysts. Configure workflows for your case types. Everything stays on-premise.

**Project-based** (1-2 weeks)

**Zero risk to start.** Send me your next case. If the result doesn't speak for itself, you owe me nothing.

VISION

# Operate like a 20-analyst firm. With a team of 3.

### SWISS FOX PARTNERS

SWISSFOX

- Win new clients
- Manage relationships
- Strategic advisory
- Business development
- Final review & delivery

→

### MAKIR + AI AGENTS

- Investigations & due diligence
- Crypto tracing & forensics
- Compliance & regulatory filings
- OSINT & intelligence reports
- Report drafting & data analysis

→

### THE RESULT

- **3x case throughput**
- **Hours, not days** per deliverable
- New service lines now profitable
- All data stays **private & on-premise**
- **CHF 120K+/mo gross margin**

This isn't adding a tool. **This is a complete operating model upgrade** — AI-powered consulting that lets Swiss Fox compete with firms 10x its size. One AI integrator replaces the need for a full analyst bench.

SWISSFOX

# Let's reconnect.

30 minutes. No pitch.
Just a conversation about where AI moves the needle for Swiss Fox.
